Retractable Pergola & Glass

Retractable Pergola & Glass

canopee

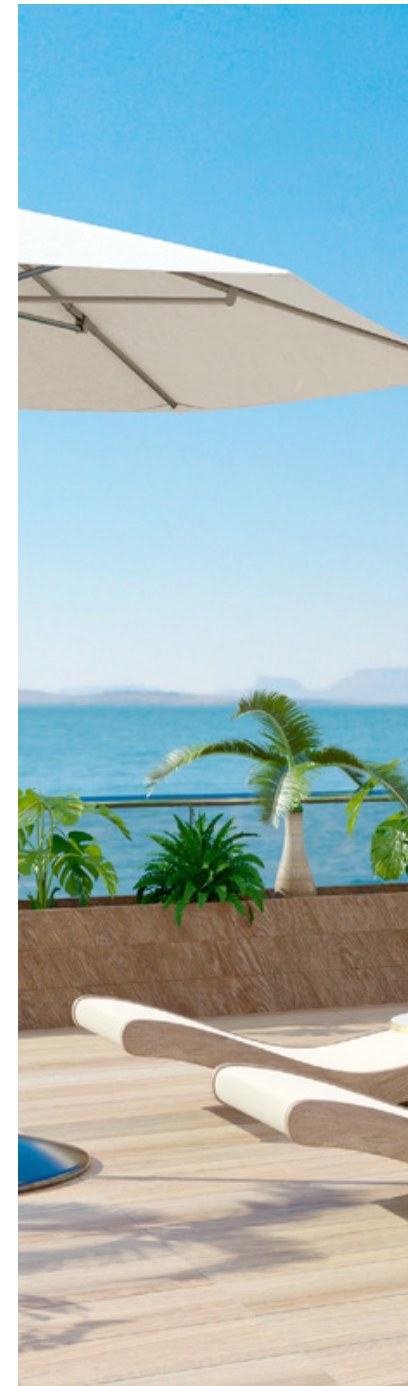

Welcome to the World of Canopee

Need extra living space for your beautiful home? That's why we've come up with "Canopee" which designs a minimalist-look pergola that works automatically. We can design, produce and make a project to find a breathtaking outdoor solution for your house.

We have an elegant retractable pergola with all compatible enclosure systems, And How we can make it all the time. The secret is to begin by choosing the most cutting-edge products. And we want them to be suitable for your house. So we always look over to find an exact way of giving you a privileged space without seeming to be an addition to your house. Its design perfectly integrates into the particular specifications of your home. In this way, you can spend much more time relaxing outdoors than you ever had a chance to do before. We try to make a free sky that the cutting-edge slats of the Canopee quietly retract, stopping wherever you desire.

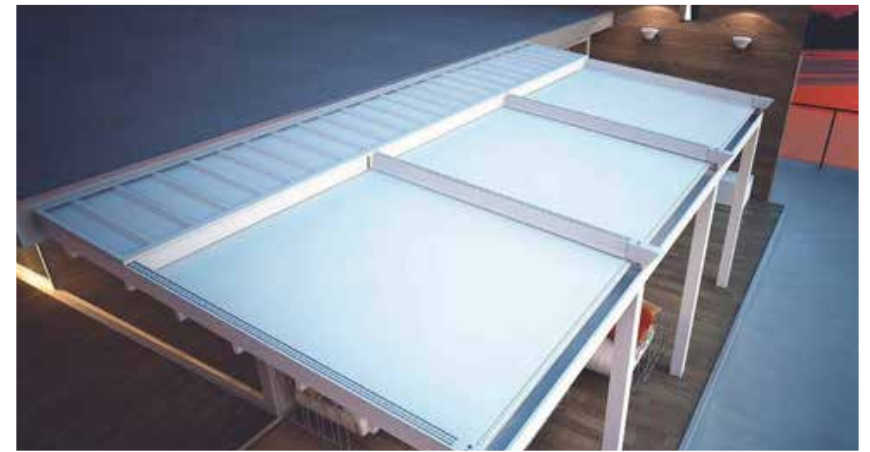

Fundamentally, we are really taking care of our world while using our understanding of the powerful properties of aluminum to create a unique and environmentally durable device to enhance your enjoyment.

CANOPEE CLASSIC

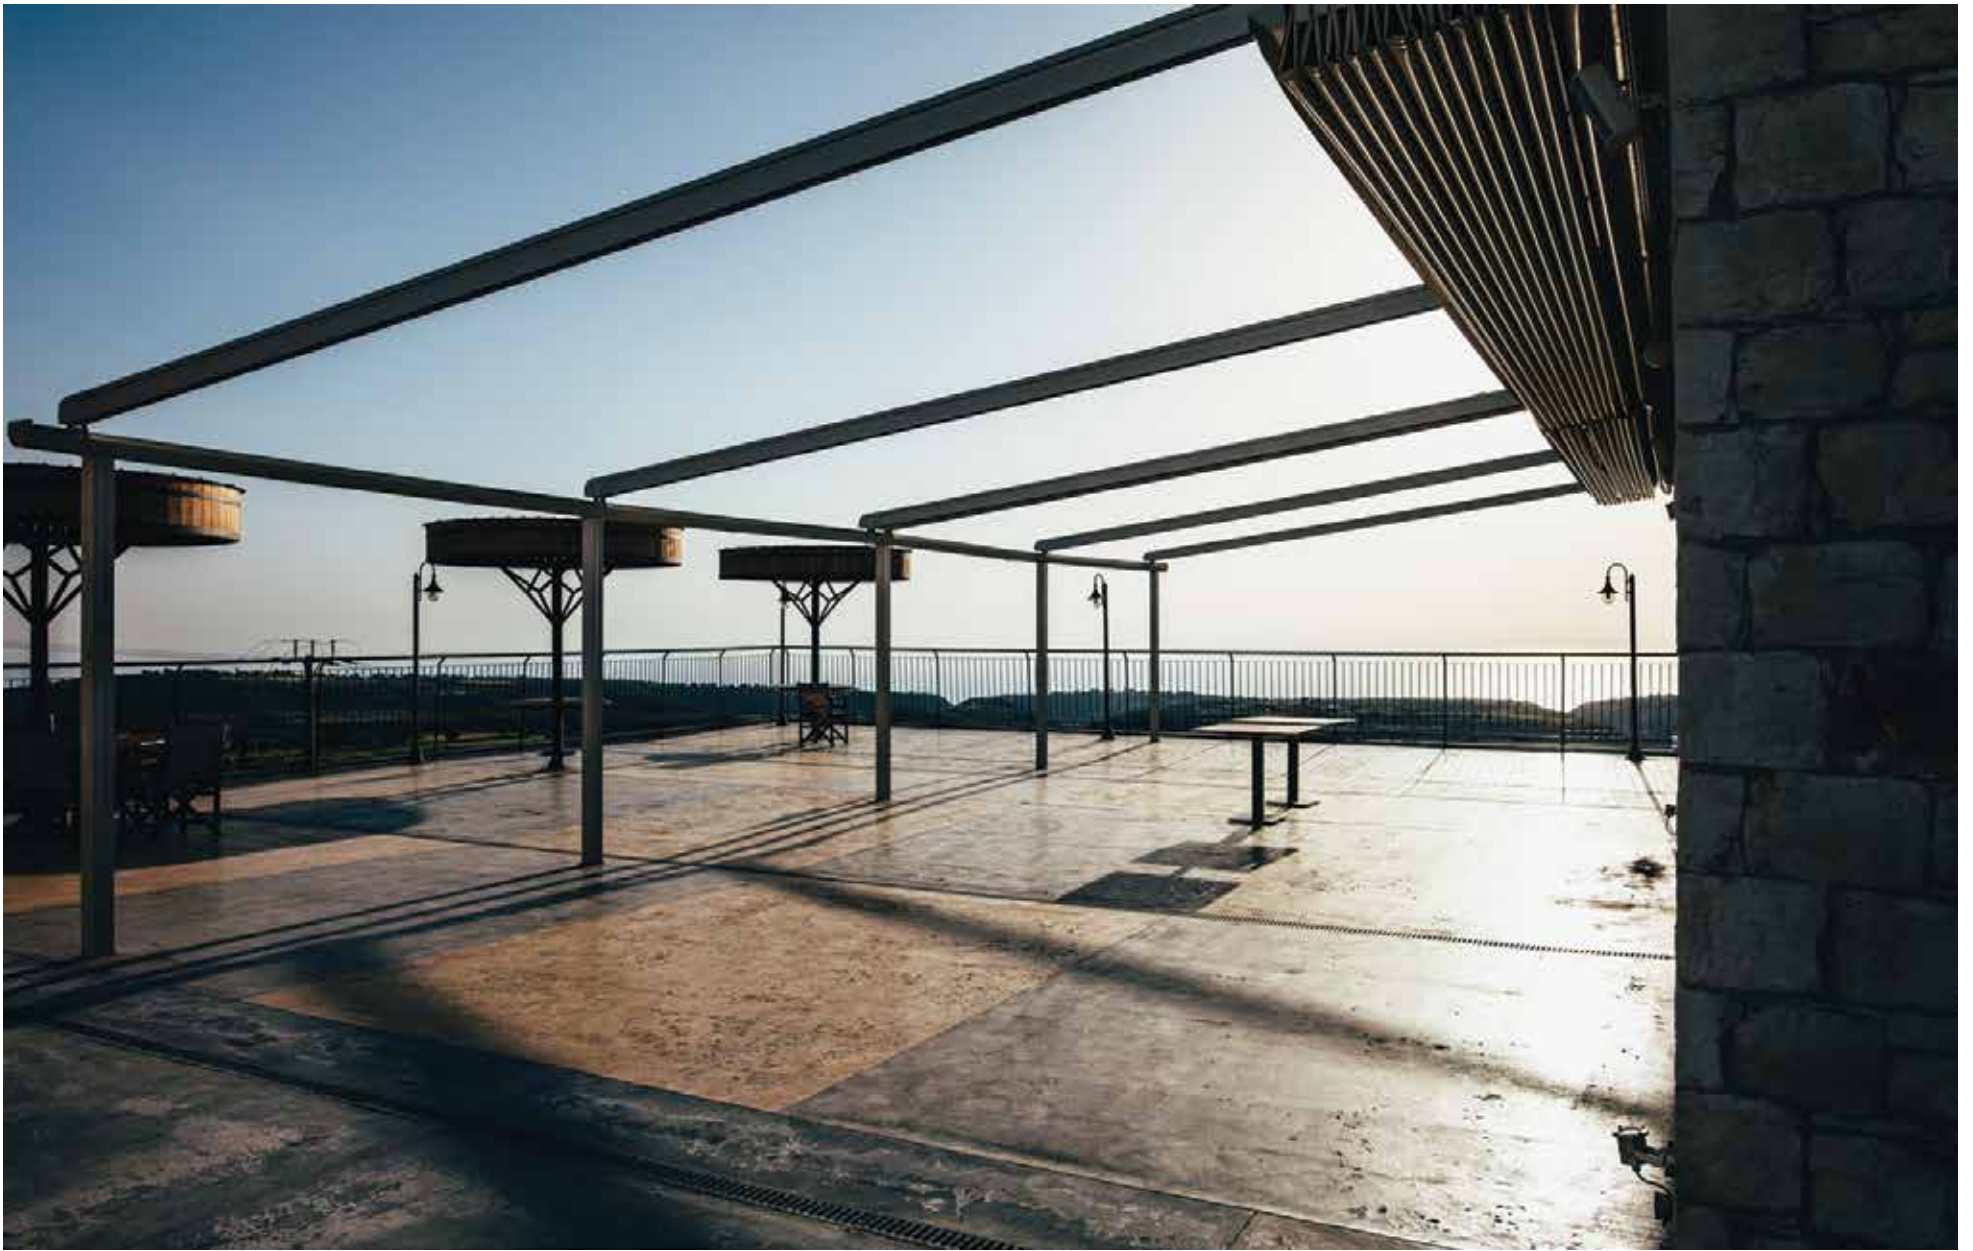

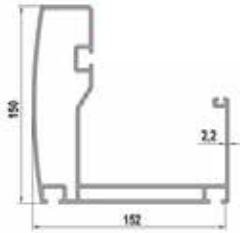

How lucky you are to have outdoor space at your home, so make the most of it to spend more time outdoors by dining, working, talking and so on. We offer perfect integrated solutions to achieve this aim. With so many colour options and with their sleek, minimalist designs, our pergolas give your garden that flawless look. Every detail of our pergolas is tailored as a bespoke answer to your unique needs. Your motorised roof opens and closes at the push of a button, or you can use your smartphone. Thanks to the use of the renowned Somfy motor system, the whole package utilises both the latest technology and modern design.

Led Profile

CANOPEE VERANDA

We have designed a patio cover that everyone is bound to love. By analysing how to harness your patio to its full potential we have developed Canopee's canopies, which convey beaming sunlight to your precise specifications. The elegant slim nature of the canopy's components add to the view and the canopy itself can be used to install the enclosure panels all year round. We offer to tailor your canopy to the specific needs of your own patio. Through all of these features, you augment the power of your patio in terms of space, utility and aesthetics

Feauteres

- Overall lifestyle
- Low-E glass
- Rigorously solid
- Paired with Roof Zip

AUTOMATIC SYSTEM

Awning canopee

CANOPEE CASSETTE

We have drawn an awning that reflects a sleek appearance to your home. Indeed, the fascinating shading system surely meets your expectation. This is a fully enclosed awning when it retracts because of its cassette design. So, any elements are not able to damage the fabric. High-tech fibres are used for covering that protects you from pouring down rain. Unlike others, it can be accommodated our cutting-edge dimmer lighting that is manageable by the remote control as well as the awning.

Feauteres

- High-tech fiber
- Dimmer Lightin
- Distinctive folding arm
- Fully enclosed

CANOPEE AIRWING

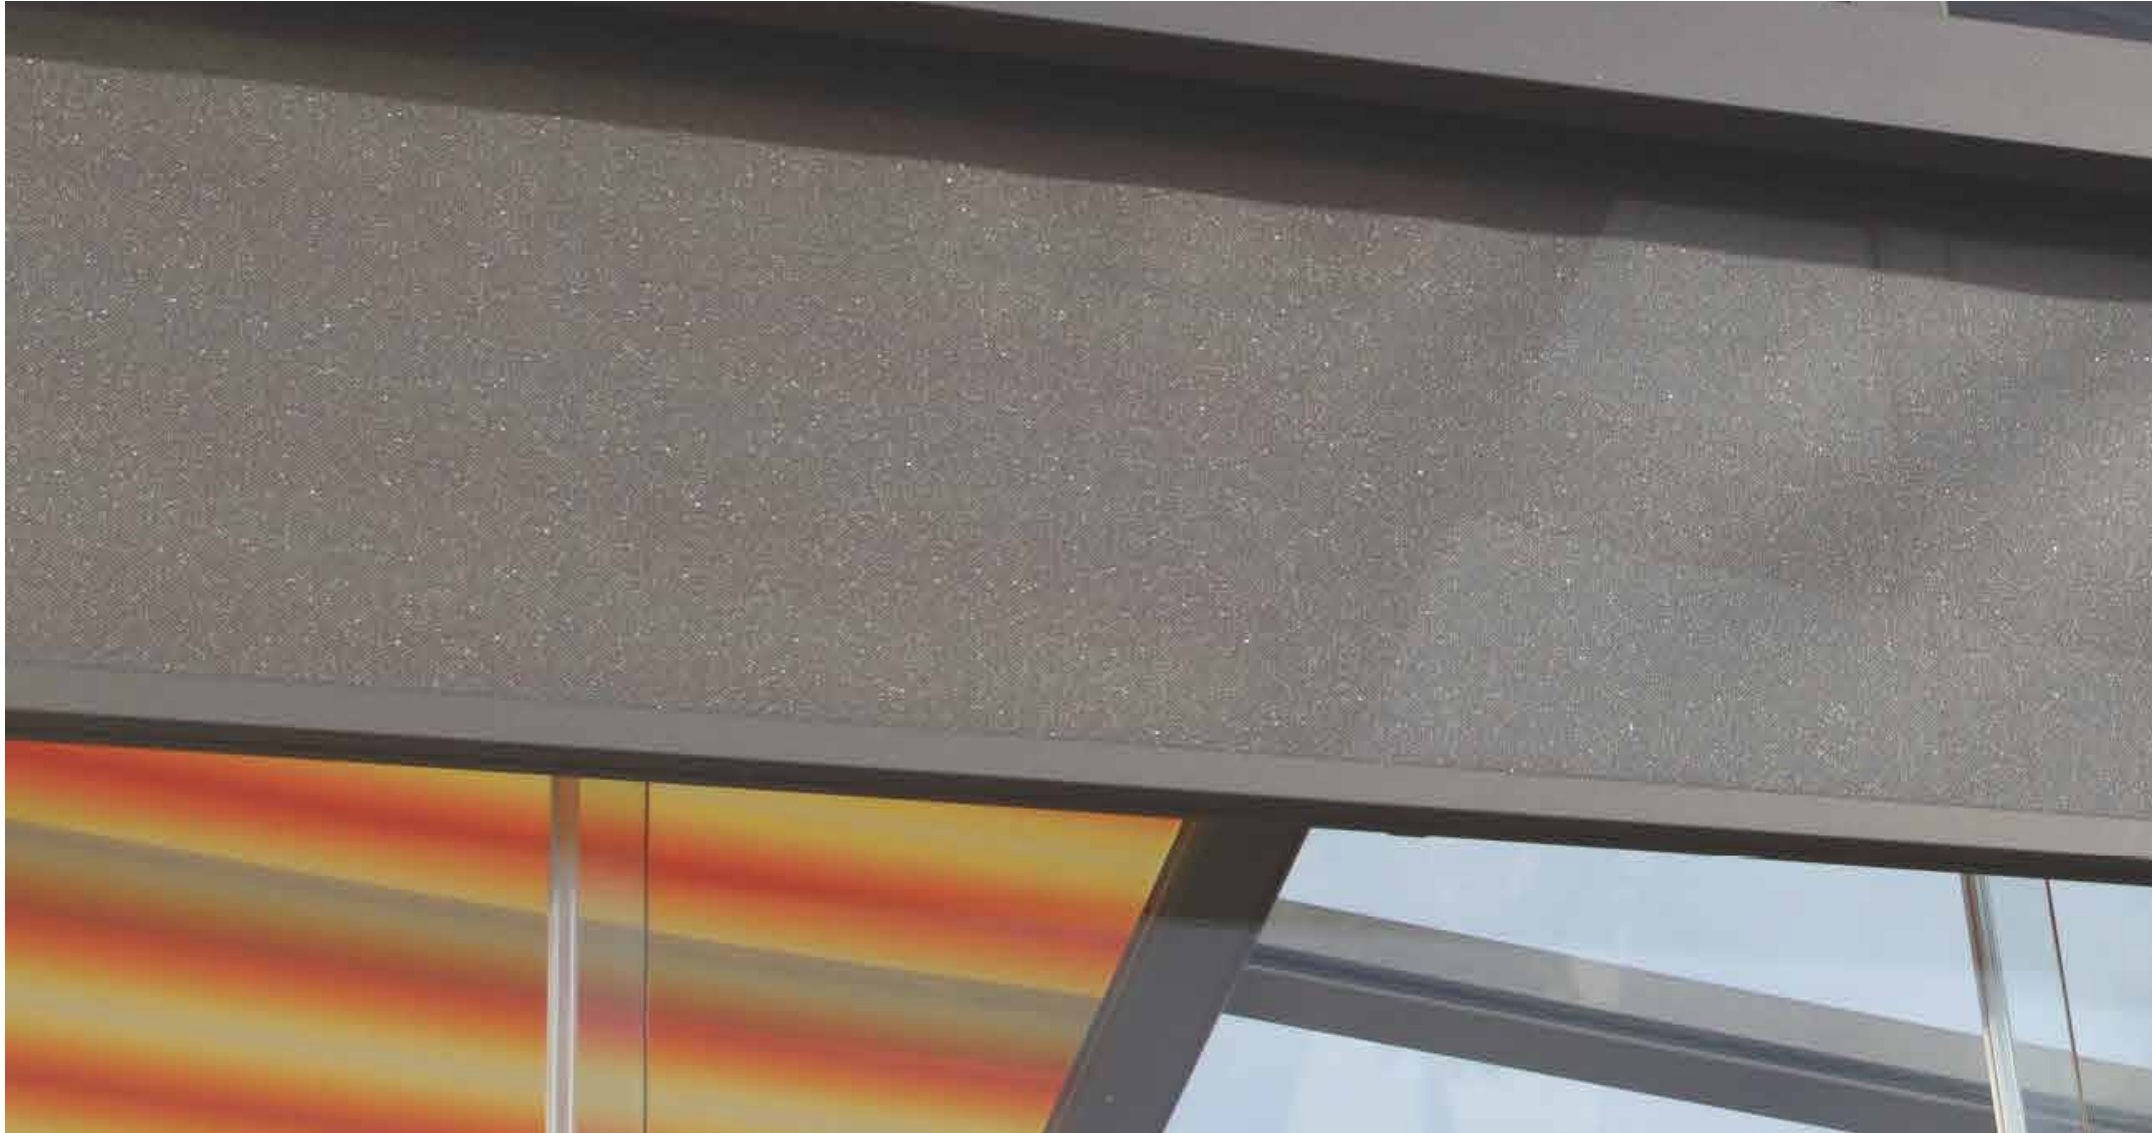

The Straight drop awning is attached to the building from an exterior area of a window, Which provides high resistance to the sun.

The CANOPEE 180 model combines restaurants and winter enclosures. You can get assured that The arms drop by a pivot arm so they can aim directly at the sunlight, and It takes up efficient space in view.

Our Pivot arm awning works automatically by Somfy Motor Technology.

Zip Screen

canopee

CANOPEE ZIP SCREEN

The possibilities are manifold: Be visible in clear sunlight or invisible in the shade!

The Foreshadow come with a unique feature: Its high-tech zip screen. This screen is in some ways superior even to exterior windows.

The Zip Screen brings your outdoor space to a whole new level. Made of waterproof polyester and specifically designed for outdoor use, it is wind and dirt resistant as well as fire-retardant.

Fixed Awnings

canopee

CANOPEE MARQUEE

A French-style awning that wonderfully enhances the facades of buildings – private, public, and business alike. At the Canopee company, we have brought the traditional marquee into the 21st century, through a combination of classic French design, with a high-quality and durable modern composition.

If you are interested in improving the visibility of your business – this is the best solution for you. An awning is also suitable for private balconies, and you can choose from a variety of smooth or striped fabrics, such as water-repellent Dralon and a filter.

4 Seasons Outdoor Life canopee

CANOPEE SLIDE

The creation of a new outdoor concept enhances your outside living standards. Just dream, and then turn your outdoors space into a living space all year round. You can hold get-togethers with friends on rainy days as well as hot days, or simply let your children play and have fun. We offer 2 types of glass walls: Sliding/Folding and Sliding. The Sliding/Folding system is retractable with the removal of the glass panel, which is remarkably easy with just a gentle push, thanks to its robust, seamless roller design. The glass moves in flawless silence via the use of an innovative rubber seal around the track. It has a strong resistance in 4mm,5mm,6mm,8mm or 10mm tempered glass.

Features

- Permits natural sunlight to flood in.
- Requires little-to-no maintenance.
- Variety of ways to arrange the screens and pergolas.

CANOPEE FOLDING & BI-FOLDING

The folding system is retractable with the removal of the glass panel, which is remarkably easy with just a gentle push, thanks to its robust, seamless roller design. The glass moves in flawless silence via the use of an innovative rubber seal around the track. There are two options; aluminum frame or frameless. We have developed our folding glass with a frame. It is even suitable with low-E glass with an aluminum frame as well.

Frameless Folding system has a strong resistance in 4mm,5mm,6mm,8mm, or 10mm tempered glass, which allows it to be seamlessly joined tightly to the aluminum track as frameless tempered glass panes.

Features

- Permits natural sunlight to flood in
- Requires little-to-no maintenance
- Variety of ways to arrange the screens and pergolas

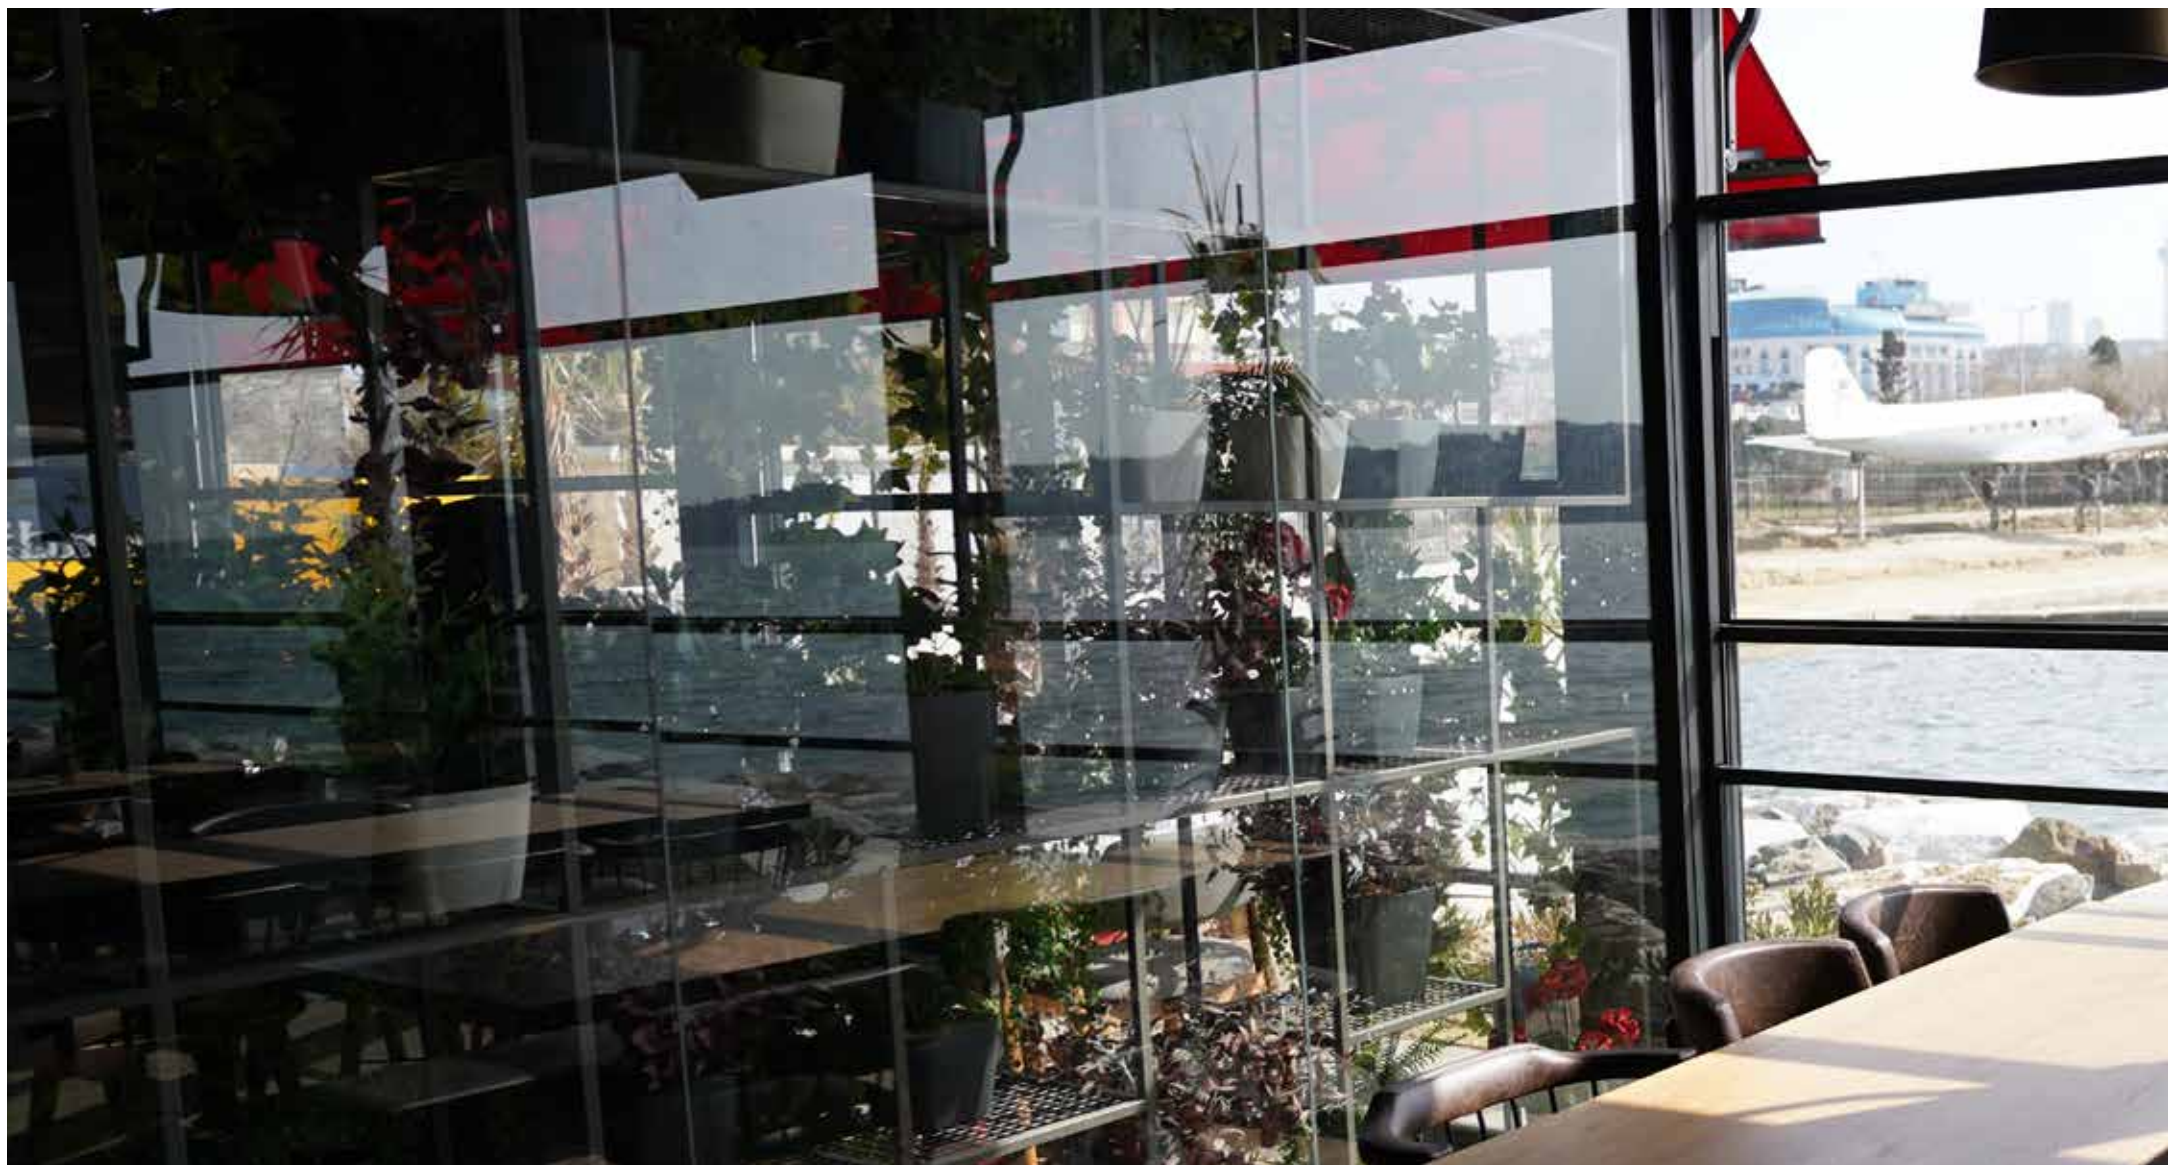

CANOPEE VERTICAL GLASS

Just imagine being able to have limitless views over your balcony or patio. The Vertical Glass System provides you with augmented feelings of freedom. This is because the Vertical Glass System gives you significant usage options, so that you can use your space as a gapless enclosure without sacrificing your view. Equally, you can use your pergola area wide open. The deployment of our Vertical Glass System can be motorised or manual. The manual vertic glass is inspired by hydraulic technology. The system is easily accessible for cleaning by an opening feature in the bottom frame. If you want to have the option of our Zip Screen, this is easily accommodated.

Liveability of Spaces canopee

CANOPEE

We heartily make various types; Pergolas, Awnings, Enclosures; Modern Glass Balconies and Sliding Sun Breaker.

We are vertically integrated and put extraordinary effort into our products according to your needs from beginning to end. Our company produces customized answers with a team of professional engineers and designers with comprehensive experience in the field, and many satisfied customers have been able to testify to this. We focus on all the characteristics of space to offer a solution until you are sure it best suits you. The result is enclosures for properties and businesses that are high quality, accurate and durable, made of the best raw materials – including environmentally-friendly aluminum. We offer manual or electric opening mechanisms and a variety of designs. There is no challenge that you can have fun in an expanded space as you have a meeting, spare time, or do serious business.

We can tailor an outdoor solution to fit each person's desire.

All our great effort to meet our client's desire should characterize your patio cover and enclosures. The result has to be precise aesthetically and technically. We are proud of turning your space into a full of breathtaking patio covers, which you enjoyed spending time there regardless of the seasons. So ,we want you to have an elegant place with;

- PERGOLAS
- AWNINGS
- FOLDING OR SLIDING DOOR
- AUTOMATIC VERTICAL GLASS
- GLASS VERANDA
- SPECIAL ALUMINUM SOLUTION
